BLUE SEA EXPORT IMPORT

10 July 2024

How to Buy Info and Company Documents

BLUE SEA
EXPORT IMPORT

BLUE SEA EXPORT IMPORT

1. We buy the products for you fresh we don't store them, we don't waste energy or storage space
2. We contact suppliers around the world to identify best quality products and prices
3. Our regular fee is fixed 10% out of total cost for all products (4% only for first client)
4. We inspect the products for you before we buy them, so you don't lose money
5. Products take longer to arrive at your location do to fact it's the real deal, we buy silk from China, parmigiano reggiano from Italy, perfumes from France and so on, with laboratory analysis
6. Most suppliers will manufacture the products according to your company needs (custom-made)
7. You don't have to deal with bad employees

VS

SUPERMARKETS

1. They store products, means you buy old products, they waste energy (e.g. meat costs money to keep cold)
2. They have a variable fee 10%, 75%, 600%, 1500% and so on
3. They sign contracts with suppliers that pay them fees to show their products on shelfs
4. They don't inspect the products they put on shelfs, they sell whatever their suppliers give them
5. They don't show you "laboratory analysis" for the products, there is nothing you can do if products are fake
6. Your stuck with products their suppliers make, the products are NOT custom-made
7. Your competition will bankrupt you, if they buy better and cheaper products from other sources

DON'T WASTE COMPANY MONEY AND RESOURCES !

BLUE SEA
EXPORT IMPORT

Guide for company owners, ceo's and acquisitions managers
How to buy products from our catalog

A. Send grocery list and public documents to us

Grocery list = bill of materials (BoM)

1. Make the grocery list

Please add **date**, **signature** and **stamp**

You can **handwrite it** or you can use **word**, **excel**, **libraoffice**

2. Take photo or scan grocery list

3. Send business licence, id badge and grocery list to us

E-mail: blueseaexportimport@outlook.com
OR
Whatsapp: +40 743 307 383
OR
Telegram: blueseaexportimportsrl
OR
Twitter: x.com/blueseaexim
OR
Facebook.com/blueseaexportimport
OR
Write and send letter if no internet

FOCSANI, ROMANIA,
BD. UNIRII NR. 9,
BL. 9, ET. 7, AP. 27,
POSTAL CODE 620095

B. We verify documents you sent

If your documents **ok**

1. We request price quote from suppliers around the world and you wait

I sell BSEI-VEG07 USD 1 / kg
Supplier A
I sell BSEI-VEG07 USD 0.9 / kg
Supplier B
I sell BSEI-VEG07 USD 3 / kg
Supplier C
I sell BSEI-VEG07 USD 1.5 / kg
Supplier D
I sell BSEI-VEG07 USD 0.7 / kg
Supplier E

2. We generate contract and proforma invoice

We have: **BSEI-VEG07** at USD 0.7 / kg
Total costs you will see in estimative costs annex
Our commission fee is **10% out of total costs**
If you agree with contract terms and costs, send contract back to us **signed and stamped** via Post, Fedex or DHL

Total costs can include :

- Transport and logistics
- Custom brokers fees
- Lawyers & translators fees
- Laboratory analysis
- Security, office supplies
- Banks fees

and other expenses

C. Send payment to us and wait for products to arrive at your location

1. After we check documents if all ok, you send payment via TT / Money Order (bank transfer)

2. We start delivery process after payment is confimerd, we also send you copy of contract and legal invoice - payment receipt.

3. Most suppliers do not accept cash on delivery or refunds, in this case we will inspect the products before we buy them - according to contract terms, else when products arrive at your location, you inspect the package or products, if ok you the sign delivery receipt, we transfer you ownership documents and handover complete.

If products not according to contract terms, we will refund you the money minus expenses included in the contract

BLUE SEA
EXPORT IMPORT

International shipping info for orders via romanian post with value under $150

A. Parcel maximum value must be under $150
B. All parcels with value under $150 will be sent to you with legal invoice copy attached
Meaning no contract is made for parcels with value under $150
C. International / worldwide shipping via romanian post costs max. $31 per kg + post fees
D. Via romanian post we can send 1 - 10kg per parcels
E. For parcels sent to countries in the European Union no customs formalities is needed

F. For all non-EU countries customs formalities is needed

Each week on Tuesday all parcels under $150 that will be sent to countries outside European Union will be presented to customs officers at Focsani romanian post office. This is their Timetable.

The parcels will stay another 1-3 day at romanian post after that they will leave Romania's territory.

Track your parcel using the tracking number, wait for parcel to arrive in your country.

When parcel arrives you will do import customs formalities and you will pay the taxes.

Parcel should arrive in maximum 7-30 days for non EU countries.

Example formula to calculate total cost:

$178 + 10% Blue Sea Fee = $17.8
$195.8 + 19% Romanian VAT = $37.21
$233.1

Parcels with value under $150 do not need customs broker

In the example above you need send $233.1 for a $100 teddy bear

Check our catalog, use the buy procedure and contact us via email or whatsapp

Check our catalog, use the buy procedure and contact us via email or whatsapp

For EU countries we can use legal couriers that are cheaper then romanian post or we can bring the parcel to you.

SERVICIUL COMUNICARE ȘI LOGISTICĂ DOCUMENTARĂ

CĂTRE: BLUE SEA EXPORT IMPORT S.R.L.

Domnul Cătălin Alin TĂNASE, administrator

Stimate domn,

Ca urmare a solicitării dumneavoastră, înregistrată la Autoritatea Naţională Sanitară Veterinară şi pentru Siguranţa Alimentelor (A.N.S.V.S.A.) cu nr. 7457/18.04.2023, vă aducem la cunoștință următoarele informații comunicate de către Direcția Generală Sănătatea și Bunăstarea Animalelor și Direcția Generală Siguranța Alimentelor:

„În conformitate cu *Regulamentul (CE) nr. 178/2002 de stabilire a principiilor şi a cerinţelor generale ale legislaţiei alimentare*, cu amendamentele ulterioare, obligativitatea privind punerea pe piață a produselor alimentare sigure şi responsabilitatea respectării cerinţelor legislative în domeniul siguranţei alimentelor revine operatorilor cu activitate în domeniul alimentar. Obligativitatea de înregistrare a unităţilor din domeniul alimentar este prevăzută în Articolul 6 al *Regulamenutului (CE) nr. 852/2004 privind igiena produselor alimentare*, cu amendamentele ulterioare.

În cazul în care compania administrată de dummneavostră desfăşoară numai activităţi comerciale specifice intermedierii financiare a produselor fără a interveni în etapele de producţie, depozitare, transport sau distribuţie/expediere către beneficiari legislaţia naţională aplicabilă nu prevede înregistrarea/autorizarea acestui operator din punct de

Bucureşti, Piaţa Presei Libere nr. 1, Corp D1, Sector 1,
Cod Poştal 013701, Telefon: 0372184997, Fax: 0372184993
E-mail: office@ansvsa.ro, Web: www.ansvsa.ro

vedere sanitar veterinar şi pentru siguranţa alimentelor. În caz contrar, dacă operatorul economic intervine în oricare dintre etapele sus-menţionate este necesară înregistrarea/autorizarea acestui operator în conformitate cu legislaţia sanitară veterinară şi pentru siguranţa alimentelor în vigoare reprezentată de *Ordinului preşedintelui ANSVSA nr. 111/2008 privind aprobarea Normei sanitare veterinare şi pentru siguranţa alimentelor privind procedura de înregistrare sanitară veterinară şi pentru siguranţa alimentelor a activităţilor de obţinere şi de vânzare directă şi/sau cu amănuntul a produselor alimentare de origine animală sau nonanimală, precum şi a activităţilor de producţie, procesare, depozitare, transport şi comercializare a produselor alimentare de origine nonanimală*, cu completările şi modificările ulterioare şi *Ordinul preşedintelui ANSVSA nr. 57/2010 pentru aprobarea Normei sanitare veterinare privind procedura de autorizare sanitar-veterinară şi pentru siguranţa alimentelor a unităţilor care produc, procesează, depozitează, transportă şi/sau distribuie produse de origine animală*, cu modificările şi completările ulterioare.

În conformitate cu art. 5 al *Regulamentului EC nr. 852/2004 privind igiena alimentelor*, cu amendamentele ulterioare, operatorii din domeniul alimentar au obligaţia de a elabora şi aplica în permanenţă o procedură sau mai multe proceduri bazate pe principiile HACCP. Această obligaţie este aplicabilă numai operatorilor din domeniul alimentar implicaţi într-o etapă a producţiei, prelucrării şi distribuţiei produselor alimentare ulterioară producţiei primare şi activităţilor conexe. În ceea ce priveşte implementarea de către operatori a unor standarde (ex: ISO 22000, IFS Food) aceastea nu sunt obligatorii în conformitate cu legislaţia în vigoare, însă deţinerea de certificări specifice poate demonstra capacitatea unui operator de a controla riscurile în ceea ce priveşte siguranţa alimentelor.

Referitor la produsele de origine animală, inclusiv mierea de albine, dacă acestea sunt destinate consumului uman ele trebuie să fie produse, prelucrate, depozitate, transportate şi distribuite/comercializate de către operatori înregistraţi/autorizaţi sanitar veterinar şi pentru siguranţa alimentelor aşa cum este prevăzut la Articolul 4 al *Regulamentului (CE) nr. 853/2004 de stabilire a unor norme specifice de igienă care se aplică alimentelor de origine animală*, cu amendamentele ulterioare.

Operatorii economici trebuie să se asigure că, în toate etapele de colectare, transport, manipulare, tratare, transformare, prelucrare, depozitare, comercializare, distribuire, utilizare şi eliminare din cadrul activităţilor economice aflate sub controlul lor,

subprodusele de origine animală şi produsele derivate care nu sunt destinate consumului uman respectă condiţiile prevăzute de Regulamentul (CE) nr. 1069/2009, de Regulamentul (UE) nr. 142/2011 al Comisiei din 25 februarie 2011 de punere în aplicare a Regulamentului (CE) nr. 1069/2009 al Parlamentului European şi al Consiliului de stabilire a unor norme sanitare privind subprodusele de origine animală şi produsele derivate care nu sunt destinate consumului uman şi de punere în aplicare a Directivei 97/78/CE a Consiliului în ceea ce priveşte anumite probe şi produse care sunt scutite de la controalele sanitar-veterinare la frontieră în conformitate cu directiva menţionată şi de prezenta normă sanitar-veterinară.

Autorizarea sanitar-veterinară a operatorilor din domeniul subproduselor de origine animală şi produselor derivate care nu sunt destinate consumului uman se efectuează în conformitate cu prevederile art. 24 din Regulamentul (CE) nr. 1069/2009 şi cu prevederile art.7 din Ord.79/2019 pentru aprobarea Normei sanitar-veterinare privind procedura de înregistrare/autorizare sanitar-veterinară a unităţilor din domeniul subproduselor de origine animală şi produselor derivate care nu sunt destinate consumului uman şi pentru modificarea şi completarea Ordinului preşedintelui Autorităţii Naţionale Sanitare Veterinare şi pentru Siguranţa Alimentelor nr. 96/2014 privind aprobarea tarifelor aplicabile în domeniul sanitar-veterinar şi pentru siguranţa alimentelor.

Transportul de subproduse de origine animală şi produse derivate care nu sunt destinate consumului uman, se realizează numai cu mijloace de transport supuse înregistrării speciale sanitar - veterinare, conform prevederilor art.17 din Ordinul A.N.S.V.S.A nr. 79/2019.

Luând în considerare cele prezentate anterior, pentru alte informaţii suplimentare avem rugămintea să vă adresaţi Direcţiei Sanitare Veterinare şi Pentru Siguranţa Alimentelor Judeţene pe raza căreia vă veţi desfăşura activitatea. ”

Cu stimă,

ȘI PENTRU SIGURANȚA ALIMENTELOR
REGISTRATURĂ
NR. IEȘIRE 13077
Ziua 05 Luna 10 Anul 2023

Către: BLUE SEA EXPORT IMPORT SRL
În atenția: Domnului Administrator Alin Cătălin TĂNASE

Având în vedere adresa dumneavoastră formulată în atenția Guvernului României, înregistrată și la ANSVSA cu nr. 13077/25.09.2023, vă răspundem la punctele ce intră în sfera de competență a ANSVSA, după cum urmează:

b) Micii producători, care obțin și comercializează lapte și produse lactate din gospodăria proprie, indiferent de zona în care își desfășoară activitatea, trebuie să fie înregistrați sanitar veterinar și pentru siguranța alimentelor conform Ordinului președintelui ANSVSA nr. 111/2008. În conformitate cu prevederile Ordinului președintelui ANSVSA nr. 111/2008, producătorii pot livra cantități mici de lapte și produse lactate direct consumatorului final sau către unități de comerț cu amănuntul locale care furnizează laptele și produsele lactate direct consumatorului final.

Prin urmare, laptele și produsele lactate care provin de la producătorii înregistrați sanitar veterinar și pentru siguranța alimentelor, atât pentru vânzarea directă cât și pentru vânzarea cu amănuntul, nu pot face obiectul comerțului cu ridicata către intermediari.

c) Prin Nota de Serviciu nr. 25466/14.02.2020 au fost transmise Direcțiilor Sanitar Veterinare și pentru Siguranța Alimentelor județene instrucțiuni tehnice privind desfășurarea activității de livrare pe bază de comandă a produselor alimentare către consumatorii finali, prin intermediul persoanelor care utilizează trotinete, biciclete, scootere sau autoturisme, prin servicii de tip Uber (Glovo,Tazz, Food Panda etc.).

Orice unitate de alimentație publică care desfășoară și activitate de livrare a alimentelor către consumatorul final pe bază de comandă electronică on-line de tip Uber (Glovo, Tazz, Food Panda, etc), trebuie să fie înregistrată sanitar veterinar și pentru siguranța alimentelor în conformitate cu prevederile Ordinului președintelui ANSVSA nr. 111/2008, cu modificările și completările ulterioare, iar pe documentul de înregistrare la punctul VII. 3 din Anexa nr. 3 trebuie fie înscrisă mențiunea ,,valorificare prin comandă pe internet".

În ceea privește asigurarea trasabilității produselor alimentare ce sunt livrate pe bază de comandă către consumatorul final, este necesar ca acestea să fie etichetate, sau însoțite de informațiile ce prezintă interes pentru consumatorul final, în conformitate cu prevederile cuprinse în Regulamentul (CE) nr.1169/2011 privind informarea consumatoritor cu privire la produsele alimentare.

Unitatea de alimentație publică va lua măsurile necesare pentru ca împachetarea produselor alimentare ce urmează a fi preluate și livrate consumatorului final, să se realizeze în așa fel încât, să existe un sistem de închidere de siguranță/sigiliu, acestea fiind desigilate numai de consumatorul final căruia îi este livrată comanda, care se poate convinge de integritatea și conformitatea comenzii.

În contractele/acordurile de colaborare încheiate între unitățile de alimentație publică înregistrate sanitar veterinar și pentru siguranța alimentelor și societățile comerciale care gestionează platformele de tip Uber (Eats, Glovo, Food Panda, etc), trebuie să fie stabilite

clauze contractuale clare în ceea ce privește asumarea responsabilității privind siguranța alimentelor, respectiv:

- unitatea de alimentație publică este responsabilă de respectarea condițiilor de igienă pe întreaga perioadă de preparare/gătire/ambalare și etichetare a alimentelor și până ce acestea sunt preluate pentru a fi livrate;

- societatea comercială care gestionează platformele electronice on-line de tip Uber (Eats, Glovo, Food Fanda, etc), respectiv persoana care preia și livrează alimentele pe bază de comandă înregistrată pe platforma electronică tip Uber (Eats, Glovo, Food panda, etc), sunt responsabile de respectarea condițiilor generale de igienă pe întreaga perioadă de transport a alimentelor, de la preluarea acestora de la unitatea de alimentație publică și până la livrarea către consumatorul final.

Având în vedere că, trotinetele, bicicletele, scooterele sau autoturismele sunt vehicule/autovehicule construite și dotate pentru a fi utitizate în scopul transportului persoanelor și a altor bunuri/mărfuri, acestea nu pot fi incluse în lista mijloacelor auto specializate pentru transportul produselor de origine animală și/sau nonanimală așa cum sunt definite în Ordinul ANSVSA nr.57/2010, cu modificările și completările ulterioare, și Ordinul ANSVSA nr. 111/2008, cu modificările și completările ulterioare, pentru care să fie necesară autorizarea/înregistrarea sanitară veterinară și pentru siguranța alimentelor.

Prin urmare, platformele electronice on-line de tip Uber (Eats, Glovo, Food Fanda, etc.) nu trebuie să dețină HACCP, certificate ISO 22000 sau să fie înregistrate sanitar veterinar și pentru siguranța alimentelor.

d) Referitor la răspunsul nr. 7457/30.05.2023, care v-a fost transmis de ANSVSA ca urmare a solicitării dumneavoastră din data de 18.04.2023, vă informăm că acesta a fost formulat și argumentat de ANSVSA în conformitate cu legislația europeană și națională în vigoare, și ANSVSA își asumă cele scrise.

Cu stimă,

DIRECTOR GENERAL

Custom made optical fibre cables
Different types,
colors, sizes, shapes
Product code: BSEI-CAB31

We will try to find manufacturers willing to make optical fibre cables, but it's probably politicized, **some advanced countries do not want other countries to be technologically advanced.**

In some countries a company needs authorization from their government, to manufacture products for a company from another country.

e.g. Do you want your enemies to be more advanced then you ?

B22 LED Spotlight
Cold or Warm or Neutral
Different shapes & brands
Product code: BSEI-CAB67

GU10 LED Spotlight
Cold or Warm or Neutral
Different shapes & brands
Product code: BSEI-CAB68

Wall Single Pole Switch
Different colors,
shapes and brands
Product code: BSEI-CAB69

Wall Two-Way Switch
Different colors,
shapes and brands
Product code: BSEI-CAB70

Wall Three-Way Switch
Different colors,
shapes and brands
Product code: BSEI-CAB71

Wall sockets and plugs types A-O: www.iec.ch/world-plugs

Wall Four-Way Switch
Different colors,
shapes and brands
Product code: BSEI-CAB72

Wall Dimmer Switch
Different colors,
shapes and brands
Product code: BSEI-CAB73

Wall Smart Switch
Different colors,
shapes and brands
Product code: BSEI-CAB74

Wall socket
Different types A-O,
shapes, colors & brands
Product code: BSEI-CAB75

Plug
Different types A-O,
shapes, colors & brands
Product code: BSEI-CAB76

Socket back box cover
Different types,
shapes, colors & brands
Product code: BSEI-CAB77

Socket back box cover
Different types,
shapes, colors & brands
Product code: BSEI-CAB78

Extension cord
Different types A-O,
outlets, colors & brands
Product code: BSEI-CAB79

Terminal block T85
Different colors,
poles, current & brands
Product code: BSEI-CAB80

Cable clamp with nail
Black or white color
Different sizes
Product code: BSEI-CAB81

Cable clamp with nail
Black or white color
Different sizes
Product code: BSEI-CAB82

Cable grommets
Different shapes,
sizes and colors
Product code: BSEI-CAB83

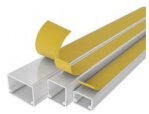
Electric meter security seal
Different colors
Custom graphic and text
Product code: BSEI-CAB84

Wire terminal
Different types,
sizes and colors
Product code: BSEI-CAB85

Cable ties
Different
sizes and colors
Product code: BSEI-CAB86

Heat shrink tubes set
Different
sizes and colors
Product code: BSEI-CAB87

Clip cable
For coaxial cable
Different sizes
Product code: BSEI-CAB88



Self Adhesive Trunking
Material: PVC
Different sizes and colors
Product code: BSEI-CAB89

For electric meter security seals **send** logo graphic and text you want manufacturers to add.

There are many types of cables, cabling and home lighting products, we can not add them all in the catalog,

When you **request a quote** for the bill of materials (BOM) via whatsapp or email send also datasheets, tehnical drawings, pictures, sizes, colors, brand, shape and type of products you need,

include as much info as possible.

Rubber cable protector
2 or 3 channels
Product code: BSEI-CAB90

MOSFET transistors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC01

JFET transistors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC02

HEMT transistors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC03

IGBT transistors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC04

BJT NPN transistors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC05

BJT PNP transistors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC06

Even if you are a professional electronics engineer, it's hard to recognize components without the **part number**

Darlington NPN transistors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC07

Darlington PNP transistors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC08

Unijunction transistors (UJT)
Different packages, colors, sizes, shapes
Product code: BSEI-EAC09

TRIAC thyristors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC10

SCR thyristors
Different packages, colors, sizes, shapes
Product code: BSEI-EAC11

Diode bridge-rectifiers
Different packages, colors, sizes, shapes
Product code: BSEI-EAC12

Schottky diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC13

Zener diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC14

TVS diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC15

Varicap tuning diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC16

Laser diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC17

LED diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC18

Photodiodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC19

DIAC diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC20

CLD diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC21

CRD diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC22

Step recovery diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC23

Tunnel diodes
Different packages, colors, sizes, shapes
Product code: BSEI-EAC24

Electronic components **have many combinations for sizes, colors and packages**. they also have a **part number** (e.g. 55J250E), **datasheet** and **tehnical drawing.** We can not add all components **that exist in the world** in our catalog.

1.When you **request a quote** for the bill of materials (BOM) via whatsapp or email **no matter** if you want to replace broken parts or when you want to order new components, **include also the part number** for each component.

2.When you don't know the part number, capture **component and pcb photo**, send photos instead of **part no**, so we can identify component and send you prices.

3.When you want to **manufacture new components** send us via email or whatsapp **tehnical drawing** for each component and **types of materials** manufacturers should use for each **component - part, include as much info as possible.**

Bioethanol
Standard EN 15376
Product code: BSEI-LLF03

Fuels related nace codes will be added only if demand and contract exists

REACH registration is done after we sign contract with suppliers and client companies

Export-import licences for fuels and other documents needed, we will get only if there is a contract signed

Reminder: Each country has it's own laws

We do not manipulate, store or transport fuels, we connect producers with client companies (brokerage)

Hardware components **have many combinations for sizes, colors and shapes**, they also have a part / serial **number** (e.g. 1X501), **tehnical drawing** & **datasheet**. We can not add all hardware components **that exist in the world** in our catalog.

1.When you **request a quote** for the bill of materials (BOM) via whatsapp or email **no matter** if you want to replace broken parts or when you want to order new components, **include also the part or serial number** for each component.

2.When you don't know the part number, capture **component and pcb photo**, send photos instead of **part no**, so we can identify component and send you prices.

3.When you want to **manufacture hardware parts** send us via email or whatsapp **tehnical drawing** for each component and **types of materials** manufacturers should use for each **component - part, include as much info as possible.**

>= 37% B2O3
Crushed powder
Product code: BSEI-MIN16

Wolframite concentrate
(Fe,Mn)WO4 > 65% WO3
Crushed powder
Product code: BSEI-MIN17

Scheelite concentrate CaWO4
> 65% WO3
Crushed powder
Product code: BSEI-MIN18

Metallurgical grade Chromite
> 40% Cr2O3 - powder
High chromium chromite
Product code: BSEI-MIN19

Chemical grade Chromite
46% Cr2O3 - powder
High iron chromite
Product code: BSEI-MIN20

Foundry grade Chromite
45% Cr2O3 - powder
Low silica chromite
Product code: BSEI-MIN21

Refractory grade Chromite
46% Cr2O3 - powder
High aluminium chromite
Product code: BSEI-MIN22

Acid grade Fluorite
+97% CaF2
Crushed powder
Product code: BSEI-MIN23

Metallurgical grade Fluorite
60-96% CaF2
Crushed powder
Product code: BSEI-MIN24

Message for generations in the future:

This is types of ores you should look for when you go out in space, this is the best ores we have here on Earth.
Earth is close to the Sun, you will be going to asteroids and planets that are far away from our star the Sun.
You need a lot of energy to process ores, i hope you figure out a solution.
You will also need a solution that will help you to time travel else you will not be able to visit other galaxies, traveling at light speed is not possible Mr. Einstein told you that.

Tehnology and tools will fail you, do to fact we are not "all knowing", may God guide and protect you.

To check ore or concentrate quality you need to do your own **laboratory analysis**, there is no other way.

------ The grain in the sand is a mineral

Concentrate or sand

Ferro alloys **are bad for the environment and toxic**, they need to be manipulated and transported carefully.

Use them immediately after you buy them, do not store them, please buy them only if you need them.

When you will request a quote for ferro alloys **send proof that you are a steel mill company**.

Also send proof that you will not stock ferro alloys - **pdf copy of contract with clien**t.

To check ferro alloys quality you need to do your own **laboratory analysis**, there is no other way.

BLUE SEA
EXPORT IMPORT

Alloys - fundamental forms from international suppliers

Contact us if you wish to buy them

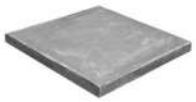
Photos are for representation only

You will need to order sample to see real product

Re-export and export

Ingot / bullion
Different alloys
standards, grades, sizes
Product code: BSEI-AFM01

Bloom
Different alloys
standards, grades, sizes
Product code: BSEI-AFM02



Slab
Different alloys
standards, grades, sizes
Product code: BSEI-AFM03

Billet
Different alloys
standards, grades, sizes
Product code: BSEI-AFM04

This type of products are bought mostly by rolling mills to form them in to more complex shapes.
When you request a quote via email or via whatsapp for your bill of materials, include also tehnical drawing,

1. Send **material name**: e.g. steel, aluminum, copper, tin, brass, bronze or magnesium

2. Send **alloy standard name** e.g. EN 573 or EN 10088-1: 2005

Don't forget countries have different standards: EN (Europe), BS (UK), OL (Romania) and so on.

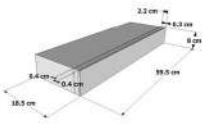
For more info about alloys standards visit **http://www.steelnumber.com**

3. Send **alloy grade** e.g. 14NiCrMo13-4

4. Send alloy chemical composition e.g. C 0.17 Si 0.4 Mn 0.5 P 0.015 S 0.035 Cr 0.8 Mo 0.2

Example how you should send your Bill Of Materials for alloys - fundamental forms:

I attached my **tehnical drawing** for **slab**, the **bill of materials** and my **company public documents**



Tehnical drawing 001A

Bill of materials

Send total price for 1000 pieces - **steel slabs**

Material name: **carbon steel**

Alloy standard name: **EN 10084**

Alloy grade: **14NiCrMo13-4** (here is the alloy grade number also 1.6657, **so no confusion**)

Alloy chemical composition **e.g. C 0.17 Si 0.4 Mn 0.5 P 0.015 S 0.035 Cr 0.8 Mo 0.2**

Include in price also transport cost to: **Kampala, Uganda, address xyz**

Incoterms: **FOB**

Payment terms: **Release TT payment to supplier after inpection on arrival in Kampala**

Date 03.11.2024 **CEO Signature**

After you send your request, suppliers around the world will send us prices and we will send you proforma with best price.
If you decide to buy we send you a model contract and sample. You read the contract and we sign it if all ok.
After we sign contract you send payment 100% in advance and you wait for products to arrive at your location.
Either before we purchase from supplier we will inspect the products **or** at your location **according to contract terms**.
After inspection if products ok we release payment to suppliers. Transaction completed !
If products not according to terms, we will refund you the money minus expenses included in the contract.
Going from Focsani to Anshan to buy 1000 pieces of steel slabs **costs money**.
Somebody has to pay transport, laboratory analysis, food, room, water and so on. **According to contract terms !**
We can escrow the money via banks, we are the brokers, this is part of our nace codes.

Circular pipe
Different brands, alloys, sizes and lengths
Product code: BSEI-AAP14

?

Non-standard shape
Different brands, alloys, sizes and lengths
Product code: BSEI-AAP15

Beside the above standard shapes, **rolling mills can make profiles according to client specifications**
Profiles can be **rolled** (e.g. steel) **or** they can be **extruded** (e.g. aluminium)
Cold rolled products are more accurate but more expensive to make, **hot rolled** products are cheaper
(Manufacturers can transform the alloys to what profile shape you need)

In metallurgy to make products you need tehnical drawings !

When you request a quote via email or via whatsapp for your bill of materials, include also the **tehnical drawing**

1. Send your **company public douments**, **tehnical drawing and bill of materials (BoM)**

2. Send **material name**: e.g. steel, aluminum, copper, tin, brass, bronze, titanium or magnesium

3. Send **alloy and profile standard name** e.g. EN 573 or EN 10088-1: 2005

Don't forget countries have different standards: EN (Europe), BS (UK), OL (Romania) and so on.

For more info about alloys standards visit **http://www.steelnumber.com**

4. Send **alloy grade** e.g. 14NiCrMo13-4

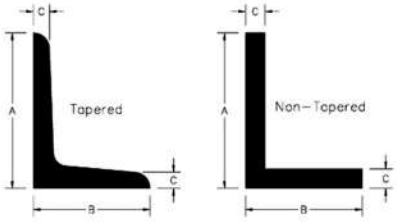
5. Send alloy chemical composition e.g. C 0.17 Si 0.4 Mn 0.5 P 0.015 S 0.035 Cr 0.8 Mo 0.2

6. Send **tehnology to be used**: hot or cold rolled or extrusion

7. Send profile length: e.g. 12m - **manufacturers can cut the profiles to size you need**

In our catalog find **Alloys - CNC Milling and Machining Products** for **BoM** example

Contracts must be made in advance so manufacturers have time to prepare !



Profiles can be tapered and non-tapered

BLUE SEA
EXPORT IMPORT

Alloys - bent profiles and sheets from international suppliers

Contact us if you wish to buy them

Photos are for representation only

You will need to order sample to see real product

Re-export and export

When you request a quote via email or via whatsapp for your bill of materials, include also **tehnical drawing.**

Your product must be simple, without patent and easy to manufacture by any workshop.

If your product is patented in USA, you will not be protected in China or other countries.

Patented products you can manufacture only in countries where you are protected.

Please send only tehnical drawings in public domain or for products that do not need patent.

1. Send **tehnical drawing**

2. Send **material name**: e.g. steel, aluminum, copper, tin, brass, bronze or magnesium

3. Send **alloy standard name** e.g. EN 573 or EN 10088-1: 2005

Don't forget countries have different standards: EN (Europe), BS (UK), OL (Romania) and so on.

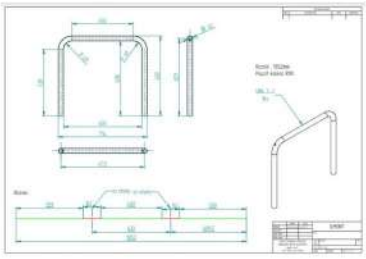
For more info about alloys standards visit **http://www.steelnumber.com**

4. Send **alloy grade** e.g. 14NiCrMo13-4

5. Send alloy chemical composition e.g. C 0.17 Si 0.4 Mn 0.5 P 0.015 S 0.035 Cr 0.8 Mo 0.2

Example how you should send your Bill Of Materials for alloys - bent profiles and sheets products:

I attached my **tehnical drawing** for **product xyz**, the **bill of materials** and my **company public documents**



Tehnical drawing for product xyz

Bill of materials

Send total price for 1000 pieces - **product xyz**

Material name: **carbon steel**

Alloy standard name: **EN 10084**

Alloy grade: **14NiCrMo13-4 / Product physical properties: xyz**

Alloy chemical composition **C 0.17 Si 0.4 Mn 0.5 P 0.015 S 0.035 Cr 0.8 Mo 0.2**

Include in price also transport cost to: **Sydney, Australia, address xyz**

Incoterms: **CIF**

Payment terms:

Release TT payment to supplier after inpection on arrival in Sydney

Date 03.11.2024 **CEO Signature**

Bent profiles and sheets service is for companies that do not have bending machines and skilled workers in their own city or country.

Example applications for bent profiles and sheets:

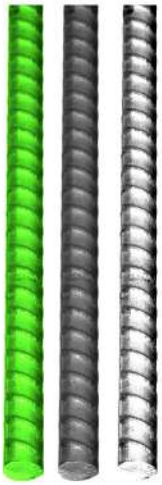
Re-export and export



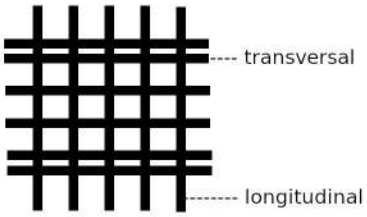
Rebar
Different standards, bar lengths, diameters
Product code: BSEI-AAR1

When you request a quote via email or via whatsapp for this product, include also:

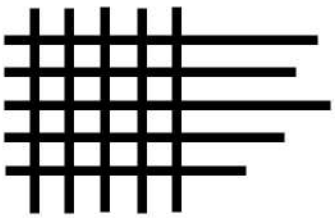
1. Rebar standard: SR 438-1:2012
2. Rebar grade: e.g. B500C, B500B or B500A
3. Rebar alloy chemical composition **e.g. C 0.17 Si 0.4 Mn 0.5 P 0.015 S 0.035 Cr 0.8 Mo 0.2**
4. Rebar rolling mill type: hot or cold
5. Rebar type: carbon steel, stainless steel, galvanized, GFRP or epoxy coated
6. Rebar length: **cut to size** - max 12m
7. Rebar diameter: 6, 8, 10, 12, 13, 14, 16, 20, 22, 25, 30, 32, 40 or 50mm
8. Presentation shape: bar or coil
9. Rebar **seismic zone** where it will be used: Japan, Tokyo (**High seismic risk !**)
10. Rebar corrosive environment where it will be used: Medium (**Coastal / Industrial**)
11. Rebar structure type where it will be used: Bridge, Skyscraper, Tunnel and so on
12. Rebar ribs pattern: smooth, spiral, herringbone or crescend shape
(**if possible send picture so no confusion** - countries have different standards)
13. Rebar manufacturing country: e.g. **Japan**, Germany, Italy, USA, China
14. **Rebar mechanical properties**: elongation, yield strength, tensile load

Warning ! Do not buy armatures designed for low seismic areas so you can use them in high seismic areas

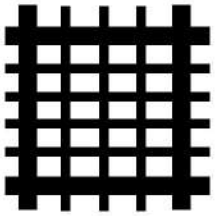
Panels can also have **different forms**



Different pitches for longitudinal or transversal wires



Free ends for longitudinal or transversal wires



Side reinforcement for mesh or different diameters for wires

And many other combinations

Contracts must be made in advance so manufacturers have time to prepare !

Similar to rebar when you make request for panels send details:

Reinforcing rebar mesh
Different standards,eye and panel sizes, wire diameters
Product code: BSEI-AAR2

1. Mesh standard: SR 438-3:2012 (romanian standard)
2. Mesh wire type: smooth
3. Mesh wire diametre: 6mm
4. Mesh use: Bridge, Skyscraper and so on
5. Mesh panel size: width x length
6. Mesh properties: yield strength and so on
7. **Seismic zone** where it will be used: Japan, Tokyo
8. Corrosive environment: Medium (**Coastal**)
9. Transversal and longitudinal eye size: 150 x 200mm
10. Mesh panel form: e.g. free ends
11. Mesh wire material: stainless steel rebar

You must have **tehnical drawing** for the panel, **send it so no confusion**

We do not stock the products, they are custom made for you !

Reinforcement steel fiber
Different types and brands
Product code: BSEI-AAR3

Reinforcing strands
Different brands, standards, sizes, wire diameters
Product code: BSEI-AAR4

Reinforcing wire
Galvanized or black - different brands, standards, diameters
Product code: BSEI-AAR5

Payment terms:

Release TT payment to supplier after inpection on arrival in Sydney

Date 03.11.2024 **CEO Signature**

CNC milling & machinig service is for companies that can not elaborate a alloy in their own country, e.g. the alloy for product xyz can be made only in Germany

After you send your request, suppliers around the world will send us prices and we will send you proforma with best price.

If you decide to buy we send you a model contract and sample. You read the contract and we sign it if all ok.

After we sign contract you send payment 100% in advance and you wait for products to arrive at your location.

Either before we purchase from supplier we will inspect the products **or** at your location according to contract terms.

After inspection if products ok we release payment to suppliers. Transaction completed !

If products not according to terms, we will refund you the money minus expenses included in the contract.

Going from Focsani to Berlin to buy 1000 pieces of product xyz **costs money**.

Somebody has to pay transport, laboratory analysis, food, room, water and so on. **According to contract terms !**

We can escrow the money via banks, we are the brokers, this is part of our nace codes.

Quality for products in this page can be determined only by laboratory analysis.
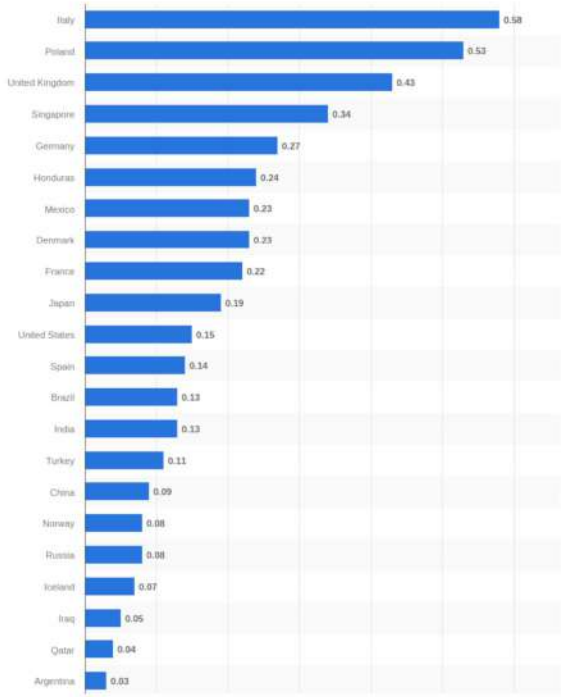
There are many combinations for insulating materials using the above examples, we can't put them all.
Tehnical data sheets can be faked also like any other documents, the product **HS Code** it's helpful also.
Example **Adamantium is a SF** material, **Glass recycling code GL 70 (Clear Glass) is real**.

***BoM = bill of materials**

Statista.com: electricity prices for enterprises worldwide in September 2023, by select country (in U.S. dollars per kilowatt-hour)



https://www.statista.com/statistics/1369634/business-electricity-price-worldwide-in-selected-countries/

Manufacturers in Italy have big problems they pay **0.58 USD / kwh**
Manufacturers in China pay only **0.09 USD / kwh**
Clients **don't care where products are made !**
Clients **want cheap, quality products and services !**
While politicians debate, your start up company will not survive
if you don't find **solutions to reduce costs**.

Product code: BSEI-CMT04

Fiberglass
Different brands,
shapes, types and sizes
Product code: BSEI-CMT05

All products in this page **will be custom-made** or bought according to **client specifications**.

Sacrificial (galvanic) anodes are the simplest and cheapest method to protect against corrosion at sea.

There are also **skin corrosion** resistant materials but you will not find them in this page.

If you need stainless steel products you will find them in **I. MINERALS AND METALLURGY** section.

The galvanic anodes can be transformed via metal casting in to almost any shape your company needs.

When you request a quote via email or via whatsapp for your **BoM**, include **tehnical sheet and tehnical drawing.**

Quality for products in this page can be determined only by laboratory analysis.

Epoxy Resin
Expiration date:
14.05.2026

Some companies and shops (**horders**) stocks this products, here is a few questions:

1. How will your company properly dispose expired epoxy liquids ?

To properly dispose expired epoxy liquids costs money, makes no sense to stock them, they need to be used **fresh**.

2. Family boats needs fiberglass special resin, are you goind to **use genaral purpose resin** to build boats ?

Companies should buy only from manufacturers **custom-made special resins**.

3. What type of resin do you need from the above examples ?

Your company has to request a quote so we understand what type of product you need, before we buy this products.

In poor and corrupt countries they are waiting for you to send your expired resins, they need the cash !

Quality for products in this page can be determined only by laboratory analysis.

***BoM = bill of materials**

Note :

Aramid fiber fabric you will find it in lightweight materials page, **graphene** in nano materials category page.
Sand, rubber and nets are others protection methods against impact.
Jupiter's huge gravitational field deflects comets and asteroids away and the Sun melts them.
Military tanks uses reactive armor, also it uses angle of armor to deflect shells.
Most tehnologies used to protect against impact is classified information (**secret**) by goverments around the world.
Protection against impact tehnologies need goverments approval to be exported.

SBR	NBR	EPDM	IIR	SILICONE
Butadiene (SBR) With or without insertion Different shapes & sizes Product code: BSEI-EMT01	Nitrile (NBR) With or without insertion Different shapes & sizes Product code: BSEI-EMT02	Ethylene Propylene (EPDM) With or without insertion Different shapes & sizes Product code: BSEI-EMT03	Butyl (IIR) With or without insertion Different shapes & sizes Product code: BSEI-EMT04	Silicone rubber (Q, MQ, VMQ, PVMQ) Different shapes & sizes Product code: BSEI-EMT05

All products in this page **will be custom-made** or bought according to **client specifications**.
When you request a quote via email or via whatsapp for your **BoM**, include **data sheet and tehnical drawing.**

***BoM = bill of materials**

All rubber products are vulcanized, means all products made from rubber **are custom-made.**

Insertion means to add layers of material, usually fabric to the rubber to improve it's mechanical properties and to to **reinforce** it. (similar to how rebar is used for concrete)

Rubber will degrade / lose it's properties over time, it's not a good idea to store it, also rubber looks the same, that's why we did not add example pictures.

Products advertised as SBR

Products advertised as NBR

Products advertised as EPDM

Products advertised as IIR

Products advertised as Silicone

As you can see rubber looks the same **only laboratory analysis can identify the type of rubber.**
You will destroy your product if you put the wrong type of rubber where it should not be put.
Quality for products in this page can be determined only by laboratory analysis.

Different counts, colors, lenghts, tex and packages
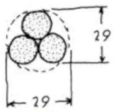
Product code: BSEI-FIB87

Thread count:
Example meaning of count number: 29s/3



Number 29s = Thickness of the thread

Number 3 = Number of strands (ply)

Color no. A1537 = color of thread on color chart
Thread on bobbin weighs TEX 30 = 30g per 1000m

We will send via email / whatsapp color chart for all products you want

Example of packages:

bobbin

cop

spool

cone

v-cone

cocoon

card bobbin

container

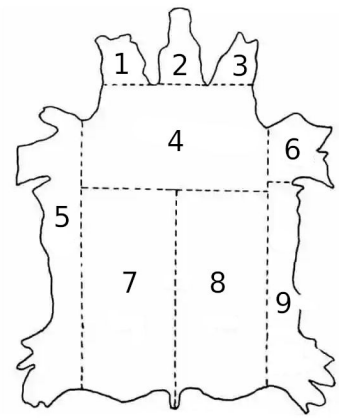
All leather is a animal byproduct and must comply with EU and national legislation of each country.
Each country has it's own system of grading leather.
In the bill of materials specify thickness of leather also include a image of the leather part you need.

Example how you should send your Bill Of Materials for leather:



I attached my diagram for a cow hide, the bill of materials and my company documents

Bill of materials

1.Send total price for 50 pieces BSEI-LTH01, **leather part 7**, thickness 6 mm each
2.Send total price for 10 pieces BSEI-LTH01, **leather part 4**, thickness 3 mm each
3.Send total price for 70 pieces BSEI-LTH01, **leather part 3**, thickness 5 mm each
4.Destination: 48 Grange Road, London W61 0TU, Bulding 5, Warehouse no. 7

Date 25.05.2024

CEO Signature

After you send your request, suppliers around the world will send us prices and we will send you proforma with best price.
If you decide to buy we send you a model contract and sample. You read the contract and we sign it if all ok.
After we sign contract you send payment 100% in advance and you wait for products to arrive at your location.
Either before we purchase from supplier we will inspect the products **or** at your location **according to contract terms**.
After inspection and delivery, if products ok we release payment to suppliers. Transaction completed !

We can escrow the money via banks, we are the brokers, this is part of our nace codes.
e.g. Charles Schwab **is broker for stocks , derivatives and virtual commodities,**
BLUE SEA EXPORT IMPORT is **broker for real commodities and goods.** (that you can hold and touch in your hands)

If products not according to terms, we will refund you the money minus expenses included in the contract.
Going from Focsani to Marrakech to buy 178 pieces of cow hide **costs money**.
Somebody has to pay transport, laboratory analysis, food, room, water and so on. **According to contract terms !**

BLUE SEA
EXPORT IMPORT

Feathers and down from
international suppliers

Contact us if you wish to buy them

Photos are for representation only

You will need to order sample to see real product

Re-export and export

Goose feathers
Unwashed
Product code: BSEI-FHT01

Duck feathers
Unwashed
Product code: BSEI-FHT02

Chicken feathers
Unwashed
Product code: BSEI-FHT03

Your company has to be authorized to process feathers and it has to wash the oil, blood and dirt off the feathers.
If you can't process the feathers, we can not sell and send you the feathers.
Exporting feathers is complex, they are a animal byproduct, it has to respect EU and national legislation.
Feathers have to be ethically sourced.
The origin of feathers will be birds for meat processing companies and authorised poultry farms.

Product code: BSEI-FNC17

Furniture accessories have a functional and decorative roll, **there are many combinations for sizes, colors and shapes**. Furniture design is **creative**.

When you request a quote for your bill of materials via whatsapp or email **include the tehnical drawings for each part.**

If the tehnical drawing does not show the materials for each furniture part, **in the bill of materials let us know what type of materials** the manufacturers should use for each **component - part** number.

We want to work with companies that manufacture furniture and do not waste materials and energy. To send back **a non-used furniture part** to the melting furnace costs money. **Also no need to cut trees if no demand,** modern furniture changes with trend, it's fashionable.

If you just want to replace broken parts send photos of the components and tehnical specs with your BOM, after we will find them for you and send you prices.

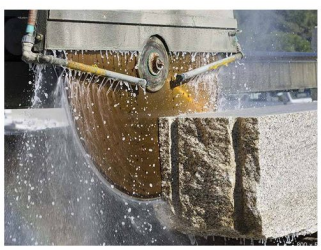
When you request a quote via email or whatsapp **send measurements** you want for your **blocks** or **slabs**.

We don't know what colors manufactures will have on stock when you request a quote for your bill of materials, we will send you **pictures and videos** of products manufacturers will send us, so you can choose products you need. Only after a contract is signed and payed, manufacturers will cut the blocks or slabs for you.



The saw looks nice, well there is a problem, it uses water and energy to cut the rock.
If manufactures cut non-needed rocks they can lose a lot money while waiting for clients.

- Metal and industrial diamonds to make the blade costs money
- Workers costs money, nobody works for free
- Electricity, water, garbage utilities costs money
- Sombody has to pay rent and taxes on the property
- Security, fire prevention and alarm systems costs money
- Office supplies and accounting costs money
- To have bank accounts open costs money, somebody has to pay the fees and so on
- Advertising to get clients fast, costs money and the campaign can fail

Storing products and wasting energy mostly happens in countries where goverments give money to companies to "save or create jobs", example China, in the short term it looks nice on paper but if China will not find clients for their products they just wasted money and energy.

Retehnologization is not easy but once someone in another country invents a new tool to cut rocks better and cheaper, the chinese products using old tehnology will become useless and expensive, nobody will buy them.

DON'T CUT TREES
IF NOBODY ASKED YOU TO CUT THEM

The US Government banned Gerovital do to fact Romania was a communist country.

"McCarthyism, also known as the Second Red Scare, was the **political repression** and **persecution** of **left-wing individuals** and a campaign spreading fear of alleged communist and Soviet influence on American institutions and of **Soviet espionage** in the United States" - Wikipedia

The most "democratic" country in the world persecutes people for political views !
In international trade quality has no value, politicians use money as a weapon !
Politicians can confiscate a 50000 DWT oil tanker just because they can !
Gerovital is banned till this day in USA !

It's not easy as you think to find manure, farmers use it for their own crops and they do not sort it.
If farmers want to sell their **leftover** sorted manure, they have to sign contracts in advance.
After quality check and payment, they give us the manure.
We also have to figure out a way to send to you. Mostly farmers have the logistics to transport manure.
Manure contains impurities, farmers will not waste energy to remove them.
Manure is a animal by-product, it must comply with EU and national legislation of each country, even in transit.
The manure will **not be sanitized (heat treatment of at least 70°C for min. 1 hour)**.
You will also have to pay for mandatory microbiological and chemical laboratory analysis.
Some countries can refuse the manure **without any justification**.Verify if your country allows manure to be imported.
You will also have to pay for **mandatory microbiological and chemical laboratory analysis**.
For mineral fertilizers specify the chemical composition you need and any other usefull info. You can get it bulk or labeled and packaged according to your specifications.
The lawyers and translators fees will be included in the proforma, they will draft the documents.

Natural rubber looks very similar,
a laboratory analysis is needed to
identify this products.

TSR = Technically Specified Rubber
CL = Centrifuged Latex
RSS = Ribbed Smoked Sheets
PLC = Pale Latex Crepe
EBC = Estate Brown Crepe

e.g. 3 - 3L = both grade L and grade 3L
and all grades between L and 3L,
is considered to be **grade 3L**.

(Acer negundo)
Size 0.1 - 4m
Product code: BSEI-SED21

Baby Japanese Quince Tree
(Chaenomeles japonica)
Size 0.1 -1.5m
Product code: BSEI-SED21

Baby Judea Tree
(Cercis siliquastrum)
Size 0.1 - 2.5m
Product code: BSEI-SED22

Baby Border Forsythia Tree
(Forsythia intermedia)
Size 0.1 - 2.5m
Product code: BSEI-SED23

Baby Ash Tree
(Fraxinus excelsior)
Size 0.1 - 4m
Product code: BSEI-SED24

Baby Common Ivy Tree
(Hedera helix)
Size 0.1 - 0.5m
Product code: BSEI-SED25

Baby Syrian Ketmia Tree
(Hibiscus syriacus sp. var.)
Size 0.1 - 1m
Product code: BSEI-SED26

Baby Lilac
(Syringa vulgaris)
Size 0.1 - 1.5m
Product code: BSEI-SED27

Baby Guelder Rose
(Viburnum oppulus)
Size 0.1 - 3m
Product code: BSEI-SED28

Baby Weigela
(Weigela florida)
Size 0.1 - 3m
Product code: BSEI-SED29

Baby Scarlet Firethorn Tree
(Pyracantha coccinea)
Size 0.1 - 1.5m
Product code: BSEI-SED30

Baby Deutzia Tree
(Deutzia scabra)
Size 0.1 - 2m
Product code: BSEI-SED31

Baby Birch Tree
(Betula sp.)
Size 0.1 - 1.5m
Product code: BSEI-SED32

Baby Large-Leaved Linden
(Tilia platyphylos)
Size 0.1 - 2m
Product code: BSEI-SED33

Baby Horse Chestnut
(Aesculus hippocastanum)
Size 0.1 - 1m
Product code: BSEI-SED34

Baby Kobus Magnolia
(Magnolia kobus)
Size 0.1 - 1.5m
Product code: BSEI-SED35

Baby Saucer Magnolia
(Magnolia x soulangeana)
Size 0.1 - 3m
Product code: BSEI-SED36

Contracts must be made in advance so plant nurseries have time to prepare !

To grow trees looks easy, it's not ! Water, fertilizers costs money, also it's back-breaking work !

It's hard to buy at stock exchange price grains, if you don't operate a licenced warehouse
All grains used in human food must be graded
All non-graded grains is animal fodder

Did you know ?
In Romania if farm land is not worked the goverment fines the farmers, even if the farmer has no money,
a example of food used as a weapon by romanian politicians,
they blackmail the poor peasants to vote for them, else they will confiscate their farm land.

The poor peaseants are forced to rent or sell their land to some large companies at bellow market price.
We will verify farm land rent values before we buy human food grains from romanian large companies.
We make sure the large companies do not cheat the poor peasents - fair trade.

BLUE SEA
EXPORT IMPORT

Cacao beans from
international suppliers

Contact us if you wish to buy them

Re-export and export

Cacao beans
For next season
Product code: BSEI-CA001

Cocoa butter
For next season
Product code: BSEI-CA002

Cocoa liquor
For next season
Product code: BSEI-CA003

Cocoa powder
For next season
Product code: BSEI-CA004

Cacao nibs
For next season
Product code: BSEI-CA005

Photos are for representation only, you will need to order sample to see and taste real product.

Cacao varieties are Forastero, Criollo and Trinitario.

Almost 98% of world cacao beans are Forastero, the rest are Criollo and Trinitario
We have no way to identify what variaty of cacao beans the producers put in the burlap graded bags,
all cacao products will be considered to have Forestero origin.

Order sample, taste the cacao products and sign contract if you like it.
Contracts must be made in advance,
so farmers and licensed warehouses have time to prepare fresh products.

From December 30th 2024, Regulation (EU) 2023/1115 of the European Parliament
and of the Council of 31 May 2023 will enter into force.

For "relevant products" that have bovine, cacao, coffee, oil palm tree, rubber, soya, wood **we must do due diligence** before we can put them on the market **inside the European Union**

Some countries will be on a high risk list, that means imports of "relevant products" **from this countries will be banned.**

https://eur-lex.europa.eu/legal-content/RO/TXT/?uri=CELEX%3A32023R1115

As you can see politicians are allowed to use legislation and food as a weapon for their own interest.
Most exporters and importers do their own due diligence without need of legislation,
Banning countries is just political, has nothing to do with export-import.

If you are a USA, Canadian or Chinese or other non-UE country client we will send you cacao **cheaper**,
EU legislation applies only to EU companies.

For next season
Product code: BSEI-COF23

Arabica 100%
(Worldwide)
Different mixed varieties
Product code: BSEI-COF24

Robusta 100%
(Worldwide)
Different mixed varieties
Product code: BSEI-COF25

Green coffee means all coffee in the naked bean form before roasting.
The green coffee must be handpicked, sun dried or washed and graded.
For now only the above arabica green coffee varieties have genetic markers,
that can be used to build quick, low-cost, and definitive genetic fingerprints,
to authenticate specific arabica coffee **varieties**.

Source: https://worldcoffeeresearch.org/resources/arabica-ldp-snp-marker-panel

Arabica and Robusta **without genetic markers** will get **normal** market price.
Arabica **with genetic markers** will get a better market price.

Exporting - importing eggs long range is not profitable and they need to be transported fast.
We will use suppliers close to your country, from neighbouring countries.

If their is no supplier near you or if eggs to expensive we can supply you with **fodder** and incubators.
It does not matter if you are in the desert, on a island in the Pacific Ocean or living on permafrost,
you can raise your own poultry using fodder we send to you.

Contracts must be made in advance,
so licensed farming companies have time to prepare fresh products.

Exporting - importing meat and byproducts outside / inside European Union is very complex,
only a few countries are allowed to import meat and byproducts inside the EU market,
The list of countries you will find in Regulation (EU) 2021/405 of 24 March 2021.
Main legislation on veterinary border checks you will find in Regulation (EU) 2017/625 of 15 March 2017
Each European Union country has it's own national veterinary legislation that needs to be considered.
In our opinion the European Union is one of the **most birocratic organization on the planet.**
Legislation can change whenever politicians want to change it.

Contracts must be made in advance,
so licensed processing meat companies have time to prepare fresh products.

You must also pay for microbiologic-chemical-physical and organoleptic accredited laboratory analysis,
and other health, environment safety costs, **don't forget about Covid**.

Licences to export - import meat and byproduct after we sign contract.
(no need to pay for unnecesary licences if there is no demand for the products)

The contract must be long term, else it's not profitable
and you must prepare for unexpectable problems.

Example of unexpected problem:

There is a swine flue pandemic and avian influenza in Europe.
How is going pay if the pork and chicken products get infected ? probably the manufacturer will go bankrupt
Insurance companies will not take risk to cover the damages.
The only way to do export-import in this case is payment of products after they arrive at destination,
after they are inspected and after the client signs hand over reciept.
Our company with help from the banks will escrow the money, so nobody cheats.

(BLUE SEA EXPORT IMPORT S.R.L. is the broker / intermediary)

Flour is different in each country.
Wheat flour in Romania must be made according to european and romanian legislation.
To see chemical and physical properties of romanian flour before you order sample look for A.N.P.C. Order 328 from 23 September 2003
https://legislatie.just.ro/Public/DetaliiDocumentAfis/46631

When you bake with romanian flour you will see if you like it or not, the rest is just words.
Romanians in urban areas eat almost daily bread and in rural area cornmeal polenta is still popular.
Italian 00 grade wheat flour for pizza = romanian 000 grade

You should also try the exotic flours in our catalog, so you can create colorful and tasty products.

When you request a quote for your grocery list via email or whastapp please let us know what type of packaging and brand you need for the cooking oil and any other details.
If quantity you need is **high** we will buy it from producers, if quantity is **low** we will buy it from merchants.
Bad guys can mix old expired oil with new oil, they can fake it.
Corrupt officials can be bribed to allow expired relabled oil or bad quality oil on the market and so on.
To check oil quality you need to do your own **laboratory analysis**, there is no other way.

We will buy vegetable oil only from producers we trust !

It's kind of a waste of energy to export-import salt, it has similar taste.
But if you really want to import salt we will export it.
Please order large quantities so we don't waste valuable fossil fuel energy. Cargo ships still use fossil fuel.
Flavored and smoked salt you can make it at home, Google how to make flavored or smoked salt.

Product code: BSEI-WAT19

In the European Union only animal based milk can be named milk, if you are in the EU you got to rename them to **plant based "drink"**, for non-EU countries you can use the word **plant based "milk"**.
This rule is weired ! Why ? Well thats how democracy works, majoraty how wins the elections makes the laws.

This products can also be faked or diluted by bad business people, **quality of plant based "milk" can be determined only by laboratory analysis and taste**.

Specify **plant based "milk" recipes** you want to be made by professional haccp certified food companies, include also **label design**, **packaging type** and **volume** needed, example cardboard 1L or tin can 0.5L, **when you request a quote** for products in this page.

The coconut products will be made according to codex alimentarius **standard CXS 240-2003**.

According to Romanian goverment decision no. 1074/2021 all **S.G.R. packaging has a 0.5 RON tax**, when we send this products from Romania to your company, you have the bear the cost of this tax. **You can not send back on the territory of Romania waste** to recover this tax, it is forbbiden by law. It's a tax that companies outside Romania can not recover. **Not important to you, but good to know.**

S.G.R. packaging = metal or plastic or glass non-reusable packaging for juice, juice containg pulps, refreshing drinks, mineral waters and drinking water

Also we will request proof that you can recycle plastic and that it will not end up in the ocean or landfills, before we sign a contract and send you the plastic water bottles.

If you own a boat, yacht, cruise or other marine vessel send proof you can sort and store the plastic at sea.

There are probably more pasta forms - shapes in the world then what we added in our catalog and they will invent more pasta shapes in the future. If a pasta shape is not in our catalog, when you request a quote for your grocery list, send us the name and picture of the pasta you want so we ask manufactures if they can make it.
In your grocery list specify also what size, ingredients, brand and type of packaging you want for the pasta.

Contracts must be made in advance, so farmers have time to prepare fresh products.

Dairies are animal products, they must comply with EU and national legislation of each country.

As company client you must be authorized to process milk.

As supplier you need to be authorized to transport and deliver milk and dairy products.

Raw milk can not be tranported long distance, it can only be processed localy.

We don't touch milk or dairy products, we are the brokers, this is part of our nace codes.

When you make a request for quotation via whatsapp specify what fats content milk and dairy products should have.
